Community Leadership Development Workshops REGISTRATION FORM

Introduction: Join Leadership Education For Asian Pacifics (LEAP) in the first of a series of community leadership development workshops sponsored by the Ford Foundation and developed to meet the needs of Asian Pacific American (APA) community based organizations (CBOs). The workshop series is based on a range of leadership development needs identified by APA community leaders from across the country.

The Need: APA leaders identified that community leaders need to be open to change and a diversity of ideas as the environment, issues and needs necessitate. The ability to be open would better prepare the APA community leader to create a shared vision of APAs, increase government representation, decrease political apathy, train and educate others, manage diversity, manage organizational finances, and sustain the organization.

The Goal: The kick-off workshops are intended to develop knowledge, skills and resources in the areas of leading change and business management.
